Attachments: OR CZARA ToDos by Jan and past Jan.docx

Lynda, this looks good. We need to think about how we deal with follow-up questions, but I think this is on the right track.

I am attaching for your review/response a short one pager of what I see as the To Dos between now and January and then post January (referencing Joelle's 1/9/2015 decision sequencing document. I just want to ground truth with you both what I'm thinking are the to dos and what I think are things we need clarification on.

I had a brief exchange with Dennis yesterday about how things went with NWEA. He indicated it was a positive exchange. I'll know more tomorrow when I talk with him.

DELIBERATIVE

"The CZARA statute calls for NOAA and EPA to apply financial penalties on CZMA Section 306 funds and CWA Section 319 funds once a finding has been made that a state has failed to submit an approvable coastal nonpoint program. The earliest such penalties could apply for Oregon is Summer 2015 when current fiscal year funds are distributed. "

Could also add: The agencies will continue to closely monitor the state's progress and are committed to working with Oregon to ultimately achieve an approvable coastal nonpoint program.
